

Asrafi Rahoman Tonmoy

Website and webapp developer

About me

I am a website / web application developer. I love to work with new people and ready to work under extreme pressure and situations. I am always vigorous about to do somethings new and learn somethings new.

I have a very good knowledge about OOP concept. I am sure if I get proper guidance, I will be able to succeed in any projects, problems, and challenges. I care about success, not completion, so I prefer succeeding rather than completing work.
